## Profile

MSc Data Science graduate with a 1<sup>st</sup> class Mathematics BSc from the University of Sheffield and well developed Python language knowledge. I'm keen to develop my career within a company and position committed to enhancing skills, opportunity and supporting personal development within a challenging environment.

## Education

### **Data Science MSc 2017 – 2018**

University of Nottingham – 1<sup>st</sup>

### **Mathematics BSc 2013 - 2017**

University of Sheffield – 1<sup>st</sup>

### **A Levels 2010 – 2012**

Mathematics – A\*

Economics – A

Computer Technology – A\*

## Skills

Python (Advanced), HTML (Advanced),  
CSS (Advanced), JavaScript  
(Intermediate), Microsoft Office,  
Photography

## Interests

I'm a passionate photographer, and  
enjoy visiting national parks to practice  
my skill.

## Experience

### **Google**

*Data Analyst Assistant – 9 months - 2016*

As part of my Mathematics BSc, I attended a placement with Google, shadowing and supporting their Data Analysts while learning on-the-job. I gained experience on data processing, machine learning, and further experience with Python.

### **Software AG**

*IT Client Services Placement – 3 months - 2012*

Worked directly with clients to ensure efficient and functioning software. Collaborated with Software Engineers to work on updates and changes based on feedback gathered by me from our clients.
