Headline statistics and business metrics

In 2021 alone, we placed **619** candidates within **200** businesses situated across a huge variety of industries. With our candidate database growing to **350,000** graduates internationally, we continue to be at the forefront of graduate and early careers recruitment.

- Across 13 sectors
- Software, Tech & Telecoms
 - HR & Business Services
 - Research, Data & Analytics
 - Finance, Banking & Fintech
 - Legal, Tax & Accountancy
 - Marketing & Advertising
 - PR & Communications
 - FMCG, Retail & eCommerce
 - Charity & Non-profit
 - PropTech, Construction & Logistics
 - Bio, HealthTech & Medical
 - Education & Training
 - Energy & Engineering

With the salaries ranging from **£20,000** up to **£80,000**, we were able to fill a broader range of roles requiring differing levels of expertise.

The average time to fill for each role remained at an incredibly low **21 working days** across the year, with the UK average time to fill for other recruitment agencies remaining at 42 days.

Digital insights and online growth

This year has seen an incredible rise in visitors to our website; over double the amount of visitors from the previous year.

Our website jobs board has experienced a **150%** increase in the volume of roles live at any given time.

2.3 million
users to our website

Our ever-expanding digital presence is also mirrored through our social channels, with our following amounting to over **100,000** people.

The Give A Grad A Go YouTube channel has continued to grow, with a **25%** increase in views over the last 12 months.

Our exposure online has enabled us to reach more graduates, with the average number of candidates placed within each sector increasing to **48**, almost double our 2020 average.

Sector specific statistics and hiring figures

With the jobs market recovering from the effects of the pandemic, our client portfolio has grown by **22%** in 2021, providing expert early careers recruitment services to **200** different companies.

We are now hiring faster than ever; with our clients reviewing an average of just **6** CVs in order to find the right candidate for the role, streamlined down by **25%** compared to the previous year.

However, our clients did not have to sacrifice candidate quality for speed of service, with **85%** of clients coming back to us to hire again.

Graduate survey results

Job preferences and insights

We are always eager to learn about graduates' employment desires, so we can place each candidate in a role and company that suits them personally. In service of this, over **300 candidates** who have registered to our website volunteered to fill out an anonymous survey on their preferences.

“ What kind of companies are you interested in working for? ”

Global Brand (250+ with international offices)

National Company (250+ with offices nationwide)

Medium Enterprise (50-249 employees)

Small Enterprise / Start-up (1-49 employees)

We found that over half of graduates would rather work for a startup or SME, with **56%** expressing interest. Our team continues to help startups hire graduate talent, and have in the past year set up a dedicated **'Work in Startups'** page on the website which is **ranking on page 1** of Google for multiple search terms.

As well as helping to give our startup clients' roles more visibility, the page offers advice for graduates on how to navigate the world of startups, and the benefits of working for one.

Graduate survey results

Job preferences and insights

In such a competitive graduate recruitment market, it's important to ensure new graduate hires have the right **incentives** to stay in their roles. That's why we asked grads which work perks appeal to them most.

“ What company perks would you like to see at work ? ”

 Free gym membership / lunchtime exercise classes
29%

 Flexible / remote working options
23%

 Regular after-work socials
12%

 Travel expenses paid
9%

 Free office snacks and drinks
8%

 Unlimited paid for qualifications and training
6%

 Company sports teams i.e football, netball
6%

 Free wellness / treatment / meditation room
4%

 Recognition & awards i.e. employee of the month
3%

With work places changing more than ever, graduates value their **health and flexibility** over traditional work perks.

Nearly **one quarter** of respondents see gym and **exercise** as one of their priorities, while a further **fifth** of graduates are looking for a company with **flexible** working options.

To hire the best talent, it is crucial that businesses align their practices with the changing work landscape.

Since the pandemic, both companies' and employees' attitudes to the working world have changed. It's important that graduates get **face-to-face time** with peers but also have the flexibility to have some days **working remotely**.

Graduate survey results

Job preferences and insights

Graduates continue to prioritise dynamic and varied working environments. **91%** of respondents would prefer a workplace with some variation between **autonomy and collaboration**.

“ What working style would you prefer? ”

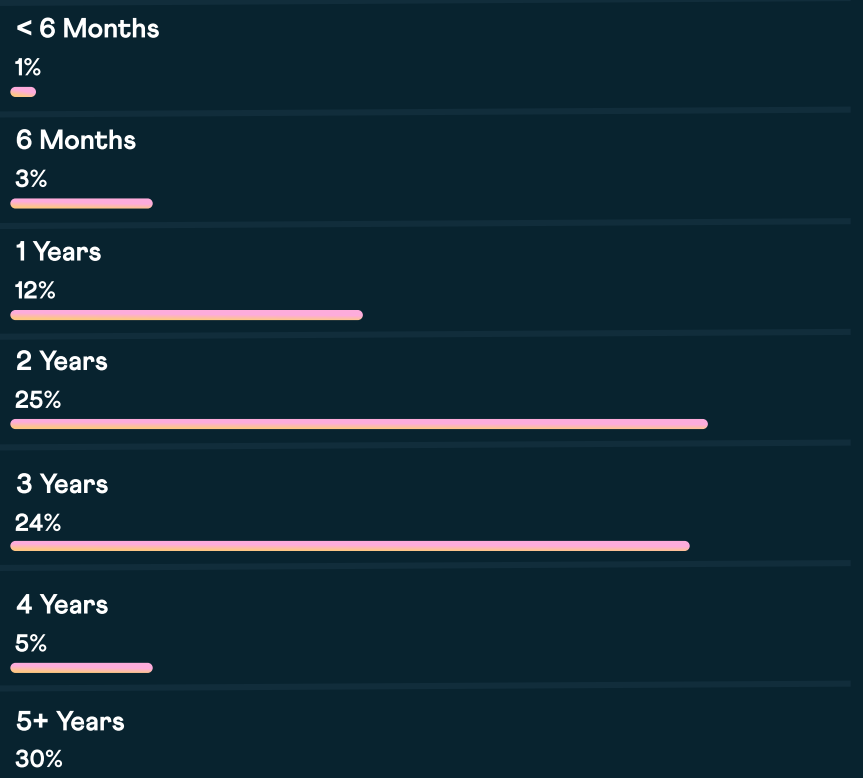

- 50/50 split of collaboration and independence 47%
- Independent focus with some teamwork and collaboration 27%
- Collaborative focus with some independence/ autonomous tasks 17%
- Completely collaborative (responsible for team tasks & targets) 5%
- Completely independent (accountable for your own tasks & targets) 4%

“ How long do you expect to stay in the role? ”

84% of participants see themselves staying in a graduate role for at least **2 years** and **29%** expect to stay in the job for **5+ years**.

This is why it's important for employers to think early on about where they see graduates **progressing**.

Where we see the best retention, **employee satisfaction** and engagement are the companies who have thought about and invested in training & progression opportunities for graduates.

Diversity & Inclusion statistics and live data insights

Our commitment to promoting diversity and inclusion continues to be reflected in our placements. This has been particularly pertinent in our encouragement of **female talent** within traditionally male industries.

For instance, whilst the industry expectation for gender split within law, tax and accountancy sits at around **45%** female, our placed candidates were **67%** female.

[Read the full report](#)

We're gathering new responses every day from our candidates, helping to build a **bigger and clearer picture** about diversity in the workplace and the hiring process. Stay up to date by checking out our live data.

[Live data](#)

The benefits of having a diverse workplace are numerous, with fair and **unbiased hiring** practices becoming more important than ever.

“ What changes can employers make to help encourage a more inclusive workplace ? ”

- 20% Equal salary for similar positions ●
- 19% Same opportunities for all employees ●
- 14% Mentoring schemes for all employees ●
- 13% Getting regular feedback ●
- 10% Diversity & Inclusion training ●
- 9% Holding staff accountable for their actions ●
- 6% Starting a diversity and inclusion team ●
- 5% Having a multilingual workplace ●
- 4% Disability support ●
